

VEEV

This is the safety alert symbol. It is used to alert you to potential physical injury hazards.

ENGLISH

SAFETY WARNINGS AND INSTRUCTIONS

PLEASE READ ALL SAFETY WARNINGS AND INSTRUCTIONS BEFORE USE TO AVOID INJURY.

These safety warnings and instructions cannot cover all possible conditions that could occur and users should exercise care and caution.

KEEP THESE SAFETY WARNINGS AND INSTRUCTIONS FOR FUTURE REFERENCE AS THEY CONTAIN IMPORTANT INFORMATION.

Intended users

- VEEV device and VEEV pods are for adult-use only.
- VEEV device and VEEV pods are for current adult e-cigarette users and smokers who would otherwise continue to use tobacco or nicotine-containing products.
- Children and adolescents should never use VEEV device or VEEV pods under any circumstances.
- VEEV device or VEEV pods should not be used by persons with reduced physical, sensory or mental capabilities or lack of knowledge, unless they have been given supervision or instruction to use the product in a safe way and understand the hazards involved.

Nicotine

- VEEV pods contain nicotine, which is addictive.
- VEEV device and VEEV pods are not risk-free. The best way to reduce nicotine-related health risks is to quit tobacco and nicotine use altogether.
- Some consumers of VEEV reported experiencing (in alphabetical order) abdominal pain, cough dizziness, dry mouth, headache, malaise, nasal stuffiness, nausea, mouth irritation, throat irritation, vomiting.
- Nicotine-containing products should not be used by people who have or are at risk of heart disease, are diabetic, are epileptic or are experiencing seizures.
- Nicotine-containing products should not be used during pregnancy or while breast-feeding. If you are pregnant, breast-feeding, or think you may be pregnant you should quit tobacco and nicotine use altogether.
- Stopping smoking or switching to VEEV device and VEEV pods or other nicotine-containing products may require the adjustment of the dosing of certain medicines (e.g. theophylline, clozapine, ropinirole).
- If you have questions about whether you should use VEEV device or VEEV pods given an existing health condition, you should consult a health care professional.

⚠ IMPORTANT SAFETY INFORMATION

⚠ WARNING Choking and Ingestion Hazard

- Keep VEEV device and VEEV pods out of reach of children and pets at all times.
- CHOKING HAZARD — VEEV device and VEEV pods contain small parts.

- **INGESTION HAZARD** —If VEEV device or VEEV pods or their parts are swallowed, seek medical attention immediately due to risk of nicotine intoxication.

▲ WARNING Electrical and Battery Hazard

Electrical Risks

Failure to follow these Safety Warnings and Instructions could result in fire, explosion, electric shock, injury, or damage to the product or other property:

- Only Intended Users should use VEEV device.
- Do not use VEEV device where the use of electronic devices is prohibited.
- Do not charge or use VEEV device or accessories if damaged, tampered with or broken.
- Do not use VEEV device if its battery appears to be leaking.
- Only charge VEEV device using a USB Cable (supplied in the box) and AC Power Adaptor (sold separately), for charging purposes. Do not use accessories not approved by manufacturer. Refer to 'Technical Data' section and www.veev-vape.com for details.
- Do not use, charge, or store VEEV device in places with high temperature (such as inside a car in summer, or near heat sources such as radiators or fireplaces).
- Do not use VEEV device where flammable materials, liquids and gases are present.
- VEEV device, AC Power Adaptor and USB Cable should not be exposed to any liquid. Do not touch them if they become wet or have been immersed in any liquid.
- Never dispose of VEEV device with other household waste, as it may enter in contact with water and/or other liquids.
- Clean the USB charging port periodically to avoid accumulation of foreign matters (such as dust particles), and inspect USB port for foreign materials before using USB connector.
- Disconnect VEEV device and/or its accessories from any source of power if it overheats, fumes, ignites, or burns while charging.
- Do not touch VEEV device and/or its accessories if they

overheat, spark, fume, ignite, or burn. If applicable and possible, use caution to shut off or disconnect power supply.

- Handle with care. Do not drop VEEV device or subject it to strong shock.
- This product contains no user-serviceable parts. Do not attempt to open, modify, service, disassemble or repair any component of VEEV device or to replace any of the components or batteries.

Battery Risks

VEEV device is powered with sealed Lithium-ion (Li-ion) batteries. Under normal conditions of use, the battery is sealed. If you notice that battery fluid leaks, follow these precautions:

- If fluid from leaked battery is swallowed, seek medical attention immediately. Do not induce vomiting or ingest food or drink.
- If vapor from leaked battery liquid is inhaled, get fresh air and seek medical attention.
- If fluid from leaked battery is in contact with skin, wash hands and do not touch eyes.
- If fluid from leaked battery is in contact with eyes, immediately flush with running water for at least 15 minutes and seek medical attention immediately.

▲ CAUTION Allergic Reaction Risk

- Using VEEV device and VEEV pods could cause an allergic reaction, such as swelling of the face, lips, tongue, gums, throat, or body, difficulty breathing, or wheezing.
- Stop using VEEV device and VEEV pods and seek medical attention immediately if you experience any of the symptoms above as they may indicate a serious allergic reaction.

Exclusive Use of VEEV pods

- Only purchase VEEV device and VEEV pods from your authorized retailers.
- Only use VEEV pods with VEEV device. Never use VEEV device with other pods. Doing so may cause injury.
- Do not modify or attempt to refill VEEV pods in any way or add any substance to VEEV pods. Doing so may cause injury.

Usage and Storage

- Do not expose this product to excessive temperatures or moisture.
- It is recommended to use the product between 0°C and 40°C.
- Store in a place inaccessible to children.

Reporting of adverse events or incidents

- If you experience any unwanted health effect when using VEEV device, consult a health care professional.
- You can report any adverse event or incident directly by contacting your local Customer Service Center (details can be found in the Customer Care & Warranty booklet). By reporting side effects, you can help provide more information on the safety of this product.
- For more information, please go to www.veev-vape.com.

TECHNICAL DATA

VEEV Device Kit

Electronic nicotine delivery system for multiple use with Bluetooth® technology
Manufacturer: Philip Morris Products S.A., Quai Jeanrenaud 3, 2000, Neuchâtel, Switzerland

Importer: Rothmans, Benson & Hedges Inc., 1500 Don Mills Rd, Toronto, M3B 3L1

The kit includes:

VEEV Device

Model B-1603

Bluetooth 4.2

Battery type: Li-ion Rechargeable Battery (230 mAh)

Input: 5V $\overline{\text{---}}$ 2A

Made in Malaysia

USB Cable Type C

Made in China

AC Power Adaptor is sold separately.

Confirmation of Compliance

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

CAN ICES-3 (B)/NMB-3(B)

This device meets the government's requirements for exposure to radio waves.

This device is designed and manufactured to not exceed the emission limits for exposure to radio frequency (RF) energy set by Innovation, Science and Economic Development Canada (ISED) of Canada.

Specific Absorption Rate (SAR) refers to the rate at which the body absorbs RF energy.

The SAR limit is 1.6 watts per kilogram in ISED of Canada that sets the limit averaged over 1 gram of tissue.

During testing, Device radios are set to their highest transmission levels and placed in positions that simulate when worn or carried against the torso of the body, with 0mm separation.

This Device complies with ISED radiation exposure limits.

VEEV device Model B-1603 operates within 2.402 – 2.480 GHz frequency band with a maximum RF output power below 10.0 dBm.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Philip Morris Products S.A. and its affiliates is under license. Other trademarks and trade names are those of their respective owners.

Further information regarding the firmware license for VEEV device is available on www.veev-vape.com.

INFORMATION ON DISPOSAL

VEEV device and its elements (including batteries) must not be disposed together with household waste. Instead, you should dispose your used

device by handing it over to a special drop-off depot for recycling of electric and electronic devices. Separate collection and disposal of used equipment (including batteries) helps to preserve nature resources and ensures protection of human health and the environment. Disposal of used equipment as unsorted household waste (for example, its burning or dumping) may cause adverse consequences for the environment and human health.

For additional information about the places where you can deliver your device for recycling please contact local administration.

BATTERY REMOVAL INSTRUCTIONS (FOR DISPOSAL AND RECYCLING)

Batteries must not be removed by the consumer. Only an authorized recycler may safely remove batteries by following these steps.

VEEV Device Model B-1603:

Step 1: Check the voltage. The Device should be fully discharged before disassembling it. Press the Power Button to check if all the LED lights are off; if not, the Device should be discharged until all the LED lights are off.

Step 2: Remove the End Cap Cover attached with adhesive.

Step 3: Remove two screws (Countersink K1.8, T6).

Step 4: Remove the End Cap Part.

Step 5: Remove the Connector Part away by pushing it from the bottom and gliding it out.

Step 6: Disconnect Battery Connector by lifting it up.

Step 7: Turn the Device around and Disconnect the Battery from its slot. Battery is attached with very firm double-sided adhesive directly on the top of the PCB.

Underage sale is prohibited.

VEEV device should only be used with special replaceable VEEV pods (sold separately).

Service term of VEEV device kit and its elements is one year from the date of its purchase.
